

Monthly Bulletin 2067

Month of Kartik

I. Conservation Activities

Sweeping/Camping: Park authority has been operating sweeping and camping operations regularly inside the park. These operations are taken as the effective anti-poaching activities since past. The operations are mainly done with the joint effort of park staffs and army personnel. They do these operations during the day time as well as at night. From the month of Kartik, the very sensitive areas prone to rhino poaching has been further strengthened from the point of view of safety and also extra sweeping/camping operations deployed considering poaching events. In addition, buffer zone community forest guards were also involved in the conservation and wildlife guarding programs.

| 34 | " | Durga Mahato (escape) | | Chitwan,Dibyanagar VDC ward no.3 | " |
| 35 | " | Nishan Mahato (escape) | | " | " |

Similarly, other 42 cases related with other wild animals were also decided in this month. Of which, 21 were fined Rs.3000/person, four were imprisoned up to 2 years/person and 17 were charged with 2 years imprisonment and 10000 fine each.

All together 9 cases relating rhino poaching, tiger's bones, other wildlife poaching and timber in 6, 1, 1, and 1 respectively has been finalized in this month.

III. Orphan Animal Care

Leopard: A leopard has been cared in the cage at Vulture Breeding Centre (VBC) since one and half years. The leopard was rescued from Myagdi district. According to the instruction provided by our senior veterinary doctor it has been regularly fed with 1.5 kg buffalo meat scheduling 1 day gap in every 2 days feeding. As the leopard has grown up, the cage seems congested for it to perform its regular activities.

Rhino calves: Two rhino calves (1 male and 1 female) have been raising up in park headquarter Kasara under the regular inspection. Now, these calves are much healthier than before when they were rescued some six months before. Both of them are doing their regular activities like feeding, walking etc. These two calves were daily visited and photographed by hundreds of tourist from all over the world.

Daily feeding menu of calves

| S.N | Items | Quantity | Remarks |
|-----|----------------|----------|--|
| 1 | Powder milk | 750 gm | Mixing all together from item 1 to 4. |
| 2 | Boiled water | 7 Litres | |
| 3 | Sarbotam pitho | 200 gm | Mixture of gram,pea,soyabean,rice and milk |

| | | | |
|---|-----------------|---------|--|
| 4 | Mineral vitamin | 10 mg | |
| 5 | Banana | 1 dozen | |
| 6 | Apple | 1/2 kg | |

Tiger: A male tiger has been rescued from the hotel Royal park premises on 2067/6/7. It has been rescued at the condition of injured due to the fight between two males for their territory. The injury has now been recovered with medical treatment. Now a day, it is getting its regular diet of 4 kgs of buffalo meat scheduling a day gap after every 7 days feeding. It has been kept in newly constructed captive cage near Crocodile Breeding Centre (CBC) far from visitors' disturbance.

Further, details of tiger

Length-237 cm

Height- 97 cm

Age- about 2½ years old

IV. Natural Death Events

Wild elephant: A male wild elephant of age about 15-16 years old was found natural death inside the park at padampur marchauli, GPS location E 0548681(long), N 3047561 (lat) on 2067/7/13. The skull and ribs of it was found severely damaged conforming the park authority that it was killed by the dominant male elephant. Two tusks of it was brought to park headquarter for safe storage.

Leopard: Two male leopards have been found poisoned at Nawalparasi, Gaidakot VDC ward no.8 near Nandan Community forest office on 2067/7/14. Among them one got spot death and another one has been treated in DFO Nawalparasi. From the treatment it is able to walk and continuous progress is gaining in its health.

Rhino- A male rhino was death at Nawalparasi,Kawasoti VDC ward no. 5 near Taruwa tal of Manakamana CF on 2067/7/15. The death was accidental. The accident occurred due to the protective electrification around the farm made by locals to protect their crops. Hooves and horn taken out from it was stored safely in DFO Nawalparasi.

Rhino- A female rhino calf was found death at Belhatha Hariyali BZ CF of Kerunga users committee on 2067/7/16. The death calf was found with deep injuries at chest and stomach (exposing intestine out of stomach) which seems that it was deadly attacked by a male adult rhino. It has no horn as it was too young while 12 hooves obtained was safely stored in park headquarter.

Rhino- A male rhino was found death near Simal ghari at Surung area (tiger tops ented camp) on 2067/7/25. The death was natural as horn and hooves were existing and some soft parts of oral cavity and anal portion was found eaten by tiger. The GPS location recorded at the position 27° 32' 5.3'', 84°13' 19.9''.

Hyena- A hyena was found death on the east-west highway road at Nawalparasi,kawasoti area on 2067/7/14. It was killed by accident while trying to cross the road.

V. Rescue

Python- A python from saun Darai's house of Chitwan ,Sukranagar-1 has been rescued and released in kasara at it natural habitat on 2067/7/17.

Similarly,a python from Bishwanath Baral of Chitwan ,Sukranagar-1 has also been rescued and released in kasara at it natural habitat on 2067/7/23.
